Dear Sister,

I received your letter yesterday - was gratified to learn of your welfare and prospect of an agreeable summer residence.

There is no danger of the Modoc getting my scalp yet - I expect to leave this section soon and move up to the northern part of the State for the purpose of going into the stock raising business. Mountain City will be my P.O. - I expect to start with 150 horses and 400 cattle.

Give my regards to Brother John

As ever Frank
